"SELF RELIANCE" IS STRESSED IN GRADUATING TALK

Record Class of 68 Graduated at H. S.; Wis. Man Is Speaker

"The Urge to Self Reliance" was the topic chosen by Prof. M. C. Graff, of the University of Wisconsin, for his address to the graduating class at Antioch Township High school's twenty-fourth annual commencement Friday evening.

Certificates of graduation were conferred on 68 students, the largest class to date that has graduated from the school. Arthur Maplethorpe, president of the school board, made the presentation.

"Ambition Counts" In his talk, Professor Graff declared that "the opportunity for useful employment is the greatest thing that can happen to a person."

Ambition, he said, is often the determining factor as to failure or success, despite the weight of luck, opportunity and natural talent. "The important thing is not what others do for us, but what we do for ourselves," he continued, relating illustrative anecdotes.

Processional Impressive The Rev. J. J. Charles, pastor of St. Ignatius' church, gave the invocation, following the opening selections by the high school band and the processional of students. White caps and gowns were worn by the girls who were graduating, and dark gray caps and gowns by the boys.

Palestrina's "Adoremus Te" was sung by the high school chorus in the early part of the program, and "Roll, Chariot, Roll," Cain, at its end. The exercises concluded with the singing of "The Star Spangled Banner" by the entire assemblage, and the pronouncement of the benediction by the Rev. Warren C. Henslee, pastor of the Antioch Methodist church.

Wilmet Event Tonight Thirty-six students will be graduated at Wilmet High school at the commencement program to be held this evening.

They are: Eloise Allen, Isabel Barhyte, Donald Burmeister, James Faber, Raymond Forster, Ralph Freeman, Charles Goff, Merlin Jahns, Donald Johnson, Lillian Johnson, Myrtle Johnson, Vivian Maleski, Levald Mallman, Helen McManus, George Richards, Lyle Richter, Robert Richter, Stanley Rynard, Fred Sackacker, Marie Schaefer, Mollie Schaefer, Eldon Schenning, Margaret Schenning, Jayne Schultz, Robert Sherman, Verle Swenson, Olive Vander Zee, Olene Vander Zee, John Vincent, Frank Voss, Stuart Waldo, Paul Cheney, Bernard Rudolph, Jeanette Robers, Kenneth Schenning, Joan Thompson, Daniel Zerfas.

Frank V. Powell, of Madison, will be the speaker.

Recover Body of Drowning Victim

The body of Douglas Huck, 21, of Chicago, for which members of the Antioch Fire department and a Kenosha Red Cross life saving crew had been dragging Bluff lake since the afternoon of Memorial Day, was discovered Saturday afternoon by two fishing parties.

The body was sighted between the boats, shortly after another craft from which the brothers of the drowning victim were conducting one last attempt at dragging, had passed by. It is believed that the drag may have set in motion underwater currents that brought the body to the surface.

A coroner's inquest was held at the Strang funeral home in Antioch Saturday evening and a verdict of death by accidental drowning was returned. The body was taken to Chicago for burial.

Huck, who was employed as a welder in Chicago, had come to the lake last Tuesday in company with another youth and two young women.

The party went out on the lake for a boat ride. Huck, who was in swimming clothes, dived from the boat and came to the surface again. He was apparently swimming when he sank beneath the surface again and no alarm was felt until he failed to rise after several minutes. A boat was then sent to shore for help, and the search started.

Mrs. Myrus Nelson was hostess to a bridge club at her home Thursday evening. Awards for the play went to Mmes. Hortense Gordon, Hugh Huftendick and William Kufalk.

JUDGES!

THOMAS E. GILL

WILLIAM L. PIERCE

RALPH J. DADY

By a two-to-one margin the Republican nominees for circuit judge emerged victors in Monday's Seventeenth district election. Judge Gill, the newest addition to the circuit bench, will hold court in Winnebago county; Judge Pierce in McHenry and Boone counties; and Judge Dady in Lake county.

LAKE VILLA SEEKS BIDS FOR ADDITION TO SCHOOL BUILDING

\$16,000 Improvement Will Be Started Soon

Bids for the construction of an addition and improvement to the Lake Villa school building were asked this week by the board of education. The project will cost approximately \$16,000, and bonds for that amount were approved by the voters at a special election held recently. The entire bond issue was sold immediately after approval by the voters, and the project from start to finish will be accomplished without benefit of WPA or other governmental spending agency.

The improvement, when completed will give Lake Villa community one of the finest elementary school plants in this locality, according to Bert Hooper, school board member, who says the day is not far distant when consolidation of rural schools will give all children the advantages and comfort of modern facilities.

Proposals for the improvement will be received by the school board until June 23, at 8 p. m. The bids are to be accompanied by a certified check for 5 percent of the amount of the bid. Plans and specifications may be secured from Albert Kapple, clerk of the board, Lake Villa.

Details regarding the placing of bids will be found on page 8 of this edition of the News.

Mrs. Thomas E. Hunt returned to Antioch last Thursday evening from a four months' trip through the eastern, southern and south-western states, including a steamship cruise through the Panama canal. She spent two months in California. Mrs. Hunt is proprietor of the MariAnne shop on Main street.

SUPERVISORS TO PLAN FIGHT ON MOSQUITOES

County-Wide Campaign to Be Laid Out at Meeting Monday

Plans for Lake county's share in the tri-county battle against the mosquito nuisance, being carried on by Lake, DuPage and Cook counties, will be discussed at a meeting of the board of supervisors Monday evening, June 2.

The proposed campaign for mosquito control calls for a \$10,000,000 WPA project with the WPA administration paying 80 percent of the cost. The remaining 20 percent would be made up by the counties. Of this, \$50,000 would be paid by the city of Chicago and the same amount by each of the three counties.

Dr. S. S. Fuller of Riverside, Ill., president of the Desplaines Valley Mosquito Abatement district, and J. Lyell Clark, district sanitary engineer and an authority on mosquito eradication, discussed methods and benefits of mosquito abatement at a preliminary meeting held Friday afternoon in the office of R. M. Lobdell, county superintendent of highways, in Waukegan.

Those present included Supervisors Leo F. Fenlon, Gurnee; Harold E. Pilliant, Waukegan; William W. Steple, Highland Park; Joseph P. Welch, Barrington; Harry W. Washo, Lake Zurich; and Cliff M. Evans, Waukegan. Supt. Lobdell and John J. Hogan, chairman of the Lake County Zoning board of appeals, were also present.

EIGHT ET FORTY ELECTS OFFICERS

Mrs. Harmon, Waukegan, Is Chosen to Head Group for Coming Year

Officers who were elected for the coming year at the June meeting of Lake County Salon No. 191, Eight et Forty, Wednesday evening in the home of Mrs. William Ward, Channel lake, are:

Mrs. J. Harmon, Waukegan, chaplain; Mrs. William Ward, demi-chaplain; Mrs. Mancel Talcott, Waukegan, demi-chaplain; Mrs. Paul Chase, Antioch, concierge; Mrs. Earl Clark, Waukegan, l'archeviste; Mrs. Howard Garnaut, Waukegan, l'aumonier; Mrs. William Phillips, La surintendant.

Mmes. Paul Harmon, Carson Neville and H. G. Clouse were chosen delegates for the Peoria marche. Alternates are Mmes. Mancel Talcott, Paul Rossberg and William Ward.

Send Graduation Gifts Graduation gifts were sent to 11 graduates at Normal, and birthday cards to the children at the National Jewish hospital in Denver whose birthdays occurred in May, it was reported by Mrs. Mancel Talcott, child welfare chairman.

The salon was represented at the annual pilgrimage to Normal and members assisted in preparation and serving luncheon for the girls sponsored in Grant cottage.

Mrs. Joseph Mieczynski represented the salon in memorial services held at the court house in Waukegan and placed a wreath of poppies on the monument.

A social hour and bridge were enjoyed after the meeting, with four tables in play. Honors went to Mrs. Talcott and Mrs. George Heckinger of Waukegan, and Mrs. Mieczynski, of North Chicago.

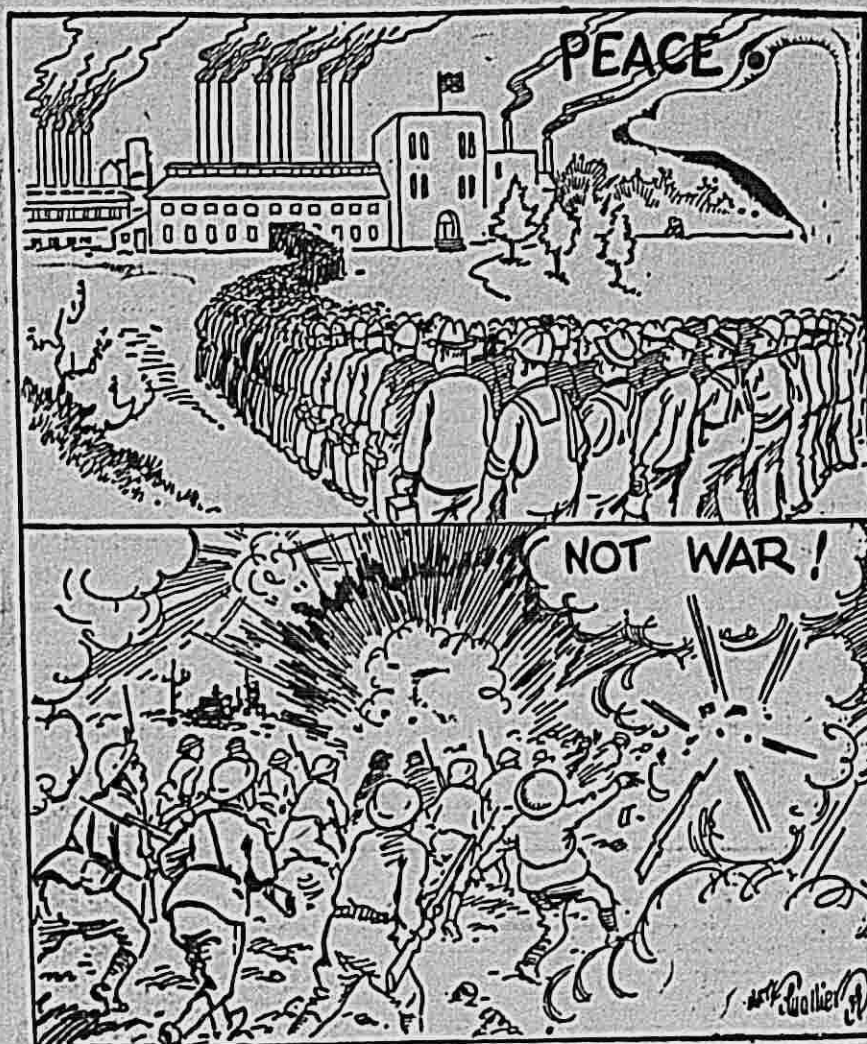

Mrs. Ward and her co-hostess, Mrs. Paul Chase, afterward served a delicious fish dinner.

Missing Automobile Is Found at Country Club

An automobile reported missing by its owner in Evanston a week ago Tuesday was discovered parked in the driveway of the Chain O'Lakes Country club Thursday when Fred Hawkins, professional, notified the sheriff's department that the vehicle had been there for two days. A 19-year-old Jacksonville, Fla., youth who admitted he had "borrowed" the car in Wilmette was taken into custody on Grass Lake road.

Summer Home Ransacked The Henry Christenson summer home at Camp Lake was ransacked recently by vandals. A radio and several other articles were reported missing.

NO STOMACH FOR WAR

News Item: "I want to make it plain that American industry has no stomach for war."—Howard Gooley, President of the National Association of Manufacturers.

Around the Resorts

A practice putting green that is just about the largest in the country is something that immediately catches the visitor's eye at Chain O' Lakes Country club, south of Antioch at Route 59 and Grass Lake road. The green, which allows for 18 holes of practice putting, is popular with golfers who want to improve their style, according to Fred Hawkins, professional and superintendent.

A number of tournaments have already been held at the club, including the Western Electric and the Antioch Lions' club tourney. The Lumbermen's tournament will be held on June 15, with wholesale and retail dealers of the lakes region taking part. Between 100 and 125 golfers are expected for this event. A second tournament will be held by the Lumbermen in August.

On June 25, the annual Binnies' tournament will be held, with about 60 or 70 employees of a Chicago concern taking part. Later, matches with various golf clubs in nearby regions will be arranged. Last year, a team from the Burlington club played against a Chain O' Lakes team.

Fred Wohlfeil, of Fred's tavern on Grass Lake road, was called to Chicago Monday by the illness of his mother, Mrs. Marie Wohlfeil, 82. Mr. Wohlfeil's parents celebrated their sixtieth wedding anniversary last November. They have visited in the lakes region and have many friends here.

Almost any day, now, Anton Rys of the Maple Inn on Highway 83 expects to welcome back from California a team of entertainers who delighted patrons at his place last summer. . . . an extended engagement out west has been delaying their return.

Mixed drinks that are compounded according to the best recipes are served with pride by John Steitz, of Steitz' Resort, which commands a fine view out over Bluff lake.

40,000 Young Pheasants to Be Released This Week

Forty thousand two-week old pheasant chicks from the State's Yorkville game farm will be shipped to county sportsmen's clubs beginning next week. The counties will receive 410 chicks for each pheasant brooder house and growing pen.

Under this plan of distribution, Lake county with only one brooder house, is to receive 410 birds, while two adjoining counties, Cook and McHenry, with three brooder houses each, will receive allotments of 1230. Eleven Northern Illinois counties will receive 410; 25 counties will get 810 each; and 11 counties have been allotted 1230.

It is pointed out to sportsmen that if Lake county is to receive consideration from the state department of conservation in the matter of supplying young game, more adequate provision for its care should be made at once.

Gets 36-inch Pickerel A 36-in pickerel was caught by Arnold Klopstein, Kenosha, at Camp lake Sunday, May 28.

COUNTY OFFICERS OPPOSED TO STATE RELIEF SET-UP

"Keep Temporary Status," Cannel, Head of Ill. Association, Urges

Fearing that under a centralized, and highly commercial, relief setup a mendicant class of citizens will be built up, James R. Cannel, president of the Illinois Association of County Officers, declared today at Shirland, Ill., that the county and township officers throughout Illinois are taking a definite stand against any relief system that would tend to perpetuate present conditions.

"We believe that relief is still an emergency measure and that with an upswing in our economic life, relief administration and financing could again be localized in the individual communities," Cannel stated. "Setting up a centralized welfare department under the state government, under the guise of handling old age pensions as well as relief, would not only tend to perpetuate a pan-handler type of citizen but it would mean the creation of some 8000 new jobs as political plunder."

Bureaus Die Hard "The history of government," he continued, "does not induce us to believe that a government bureau, once set up, is ever discontinued and its job eliminated, unless it is by another bureau. We do not want our fellow citizens who have been unfortunate enough to have required relief from the government to remain subservient to political big-shots interested only in preserving their jobs and not interested in the welfare of the people. "Least of all do we wish our neighbors to suffer from the dictates of professional social workers whose only aim in life seems to be to manage somebody else's affairs instead of their own."

Basing their stand on their 53 years of experience with helping indigent persons, the supervisors, many of whom have served their townships for over a quarter of a century, are opposing any efforts to centralize relief administration at the expense of the community.

Mrs. Barbara Wolf, of Loon Lake, Dies

Funeral services were held this afternoon at 2 o'clock for Mrs. Barbara Wolf, 73, of Loon Lake, who passed away at her home Tuesday at 1:30 a. m.

Mrs. Wolf had returned to her home Tuesday afternoon from the Burlington hospital. She became ill during the night, and passed away within a few hours.

Surviving are four sons, John, George, Fred and Frank Wolf; and two daughters, Miss Minnie Wolf and Mrs. Carl Barthel. All are residents of Antioch township.

Interment following the services, which were held in Strang's Funeral home, was at Home Oaks cemetery, Loon Lake.

G.O.P. CANDIDATES WIN IN JUDICIAL ELECTION MONDAY

Pierce, Dady and Gill Make Clean Sweep in 17th Circuit

County	Dady	Gill	Pierce	Knight
Lake	15,062	13,565	13,975	6,922
Winneb.	9,150	10,352	9,523	5,351

Boone	2,346	2,374	2,828	562

Total 32,145 31,678 32,164 15,413

Republican candidates of the Seventeenth judicial district were triumphant Monday in the election of three circuit judges to serve the district for the next six years. By a margin of more than two to one, Ralph J. Dady of Waukegan and William L. Pierce of Belvidere, were re-elected, while Thomas E. Gill of Rockford won the third place to succeed the retiring Judge Arthur E. Fisher of Rockford. The defeated Democratic entrant was B. J. Knight of Rockford.

In spite of the campaign waged by the C. I. O. forces and the Democratic central committee in Lake county against Judge Dady, the local candidate carried all but 12 of the 95 precincts in the county. Only 22,000 votes were cast in Lake county—only about one-third of the county's voting strength. A light judicial vote was recorded in 1927 and also in 1933, while over 54,000 voters went to the polls for the general election in 1936.

Boone county's 14 precincts swamped Knight, giving his three Republican opponents a four to one lead. Pierce in his home county, polled 2,828 votes. Gill's total was 2,374 and Dady's 2,346. Knight received only 562.

McHenry county without a favorite son, gave the honors to Pierce from the neighboring county with a total of 5,838 votes. Dady polled 5,587 votes and Gill 5,396. Knight tallied 2,578.

Lake, McHenry, Boone and Winnebago counties comprise the 17th district. McHenry county has been without a representative on the circuit bench since the death of the late Edward D. Shurtleff. Judge Pierce was named by committeemen of the district to fill the unexpired term.

Crashes Single out Lake Villa Residents

The fog and rain that caused a number of minor auto crashes last Friday morning were unkind to a number of Lake Villa residents.

Milton E. Thompson, on his way to Waukegan Township High school, met Carl H. Sachs, Chicago, in a collision at 8:30 a. m. A car driven by Wesley N. Sears, Grayslake, who was blinded by the lights of northbound traffic, crashed into the rear of an automobile driven by Walter C. Banow.

Arthur C. Coulombe received cuts on his left arm when his car skidded on the pavement of Grand Avenue road, east of Highway 45, at 7:15 a. m., and landed in a ditch.

Jolted in Collision

Mrs. Edna Wendling, Antioch, and James Gents, Lombard, Ill., received a shaking-up as their only injury in a collision Friday evening between their automobiles on Ivanhoe road, a block south of Route 54.

Distribute 23,000,000 Pike in Illinois Waters

The distribution last week of 23,500,000 pike fry from the Spring Grove State fish hatchery to Illinois waters was the largest in the history of the department of conservation.

About 20,000,000 of the pike were hatched at the state hatchery from eggs received from the Michigan department of conservation, with the balance coming from Ohio through co-operation of the U. S. bureau of fish hatcheries.

One million of pike fry were planted at Channel lake about two weeks ago.

Mr. and Mrs. S. Boyer Nelson and son, Wendell, visited Mr. and Mrs. D. D. Clifford, Niles Center, Saturday evening.

Old Age Pensions

It is estimated that there will be an increase of \$1,200,000,000 in old age benefit payments during the next five years, and some of our big statesmen claim to have discovered that eventually the United States will get on a pay-as-you-go system of old age benefits.

Within the next two and a half years widows, orphans and aged persons will be included in benefit payments according to authentic opinions held in Washington. But when you ask if it will be the Townsend plan the answer is sure to be "no." The idea is to have legislation worked out that will conform to the Social Security Act. But none of the wise men of the Washington Administration seem to have formulated definite plans that furnish any certainty that these popular visions will come through.

The Royal Guests

Royalty will be entertained in Washington in truly royal ways. The democratic United States hasn't made much fuss over the Royal House of Britain since the time the English troops came here and burned the White House. But President Madison didn't have much of a military force to show the British a century and a quarter ago. President Roosevelt is going to let the King and Queen look over our military and naval forces, including tanks and airplanes, as a part of the royal welcome. They will be surprised when they find out how forgiving and nice we Americans are.

"Supervision" Should Not Mean "Management"

One essential of national prosperity, observed a recent economic survey, is the existence of "a private banking system, publicly supervised, operated primarily for the benefit of individuals, industry, commerce and agriculture."

It should be kept in mind that there is a world of difference between government "supervision" of banking and government "control" or "management" of banking.

Government supervision is proper and necessary. Government "control" of banking, on the other hand, would amount to government control over practically all of the financial resources of America. Every bank account would be more or less the plaything of politics. Immense financial power could be used for political ends and purposes.

Our American private banking system has worked. It has built our industries and homes, and has done much to help give us the highest working and living standards in the world. It has been largely responsible for our world-supremacy in every field of commercial endeavor. To weaken banking as a private enterprise is an invitation to disaster. That would place the savings of the American people more and more under the not-so-tender mercies of politicians, few of whom would be employed by a private citizen to invest his savings or manage his business.

Trend of Business

The best possible estimates of the national business situation show moderate increases in about 30 states, with 18 states showing less favorable conditions than earlier in the year. There are many sources from which these reports are compiled, including the Federal Reserve Board. Seven states west of the Mississippi and 6 east of the Mississippi, including New York State, show business to be below the national average.

Fountain Pens Long In Use

About 300 years ago two adventurous Dutchmen journeyed to Paris. A diary of their experiences reads as follows: "We met a man, they relate in one entry, 'who makes goose quills of silver, into which he pours ink. . . And from the split end of the pen, one can cover pages and pages without being obliged to dip in an inkwell. This veritable magician of writing takes care to guard his secret—how he gets the ink into the hollow pen and how the ink arrives at the nib with just the right flow. He will soon make a fortune. We ourselves ordered a dozen, at twelve gold louis (about \$10) each."

But It's True

Mr. Meserole knows the age of the robin because his father banded 100 birds 43 years ago. The robin in question, which is so tame that it eats from people's hands, was born a few weeks before it was banded. According to Philip J. Campion, London scientist, who X-rayed the object found on the Kraft farm, its interior shows clearly that it was once a living animal.

POULTRY MEN MUST FEED FOR RESULTS

Birds Need Balanced Ration That Is Palatable.

By Dr. G. F. Heuser of the Cornell Poultry Department—WVU Service.

The important thing in feeding poultry is to get the birds to eat plenty of feed that is properly balanced. The method of feeding is important only as these aims are achieved.

To get enough feed consumed it probably means just a balanced ration that is palatable.

Rations for feeding poultry should be complete as to nourishment. When birds are confined, it becomes more difficult, but not impossible, to meet the requirements, as compared with birds that have access to a good range.

If the system of feeding results in enough use of feed daily, the emphasis should be not on the manner of feeding but on the ration itself.

Wide variations in feeding methods are possible so long as they do not hinder the birds in getting sufficient daily feed or interfere with the building of a ration complete with all essential nourishment.

Better Not Overfeed the Bull, Authority Asserts

One of the things to remember in feeding a mature bull is not to give him so much that he will become fat. It is better to keep him thin in flesh. It is well, too, to remember that feeding too much roughage to a bull in service is not a good practice. It may make him logy. When a bull is not in heavy service he can receive more liberal quantities of both hay and silage, but when in service it is well to limit the hay and perhaps feed no silage but increase the grain portion of his ration, says Hoard's Dairyman. As a rule, however, a bull can be fed 10 to 15 pounds of hay, preferably legume, without any injurious effect.

A mixture which could be used during breeding would be equal parts by weight of ground corn and cob meal, or just corn, and bran and cottonseed meal. We do not believe that as a rule it would be advisable to feed more than five pounds a day. If more is fed, then we would increase the bran to 200 pounds and use 100 pounds of corn and 100 pounds of cottonseed meal.

We prefer pea hay to redtop, but a little redtop could be fed for variety.

Conveniences on Farms

Surveying 3,000 typical farms the past year the United States census found that seven out of ten had automobiles, six had radios and four had electricity. Three out of nine had running water, two out of nine had bathrooms. One in three had tractors and one in four had motor trucks. Compared with the 1930 census of all farms, this indicated the proportion having tractors and radios has more than doubled, the percentage having electricity and water piped to bathrooms has increased by half. Farms with motor trucks increased from 18 to 24 per cent, and those with passenger automobiles from 64 to 71 per cent.

Egg Liver Oil

Hens used to give us eggs, and cod used to yield us liver oil; but that's all changed. Dr. H. B. Thomas, professor of animal research chemistry at the state university of Iowa, feeds his hens on irradiated yeast, which makes them lay eggs so full of vitamin D that each egg contains as much of that vital vitamin as do three teaspoonsful of cod liver oil. Doctors used to say one drop of cod liver oil contained all the nourishment of three pounds of beef steak. It looks, then, says Tit-Bits Magazine, as though Doctor Thomas has succeeded in condensing a whole ox in an eggshell.

Notes for Farmers

Protection from dampness and from drafts are the two requirements that most poultry houses fail to meet.

Tobacco growing, one of the principal farm industries of Onondaga county, N. Y., produced a heavy yield in 1938.

Buckwheat production in the United States dropped from an annual 1927-36 average of 9,569,000 bushels to 6,682,000 bushels in 1938.

Some bee keepers let their bees die in winter, claiming it is cheaper to import new stock each spring than feed their swarm during the cold months.

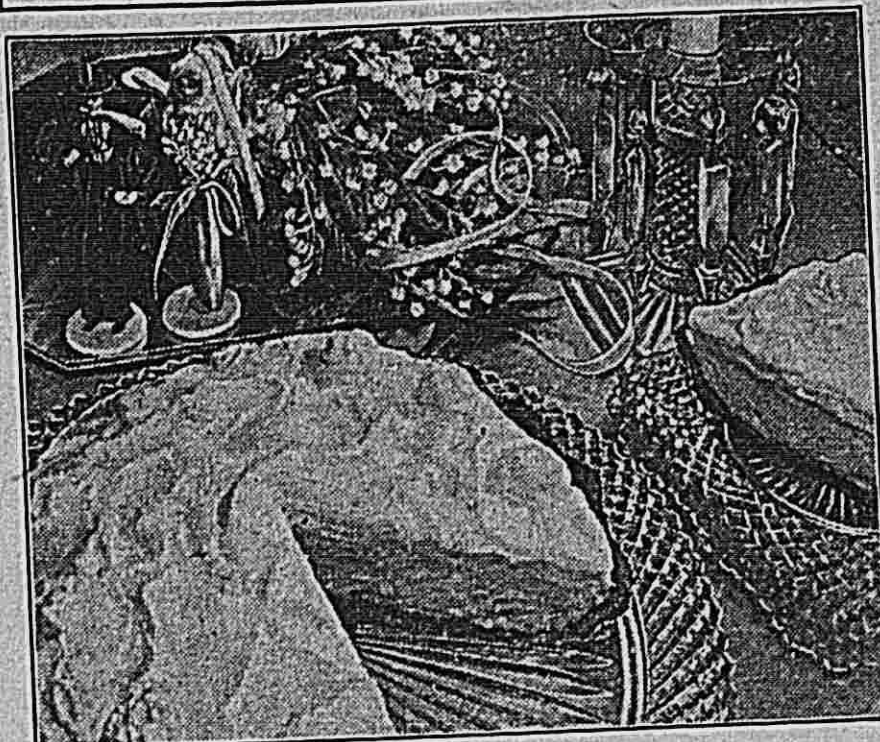

Watermelons are to be grown in Egypt from seed imported from the United States.

Of the 865 million persons gainfully employed in the world, 550 million are in agriculture.

The time to prepare brooder houses for the reception of chicks is before the chicks are received.

The poultry industry ranks fifth in cash farm income among major agricultural commodities in Oregon.

Bride's Pie—Dainty and Delicious

In the "marry marry" month of June, bridal showers occupy the center of the entertainment calendar.

Since white is the traditional color for brides, keep that in mind when planning your menu and table decorations. But an all-white menu would be a little monotonous, so add a bit of color by means of garnishes and perhaps a colorful jellied salad.

Here is a suggestion for a menu that would do nicely for a luncheon or buffet supper. If it is a bridge or late afternoon party you have in mind, then the salad and pie alone would do the trick. Assorted open-face sandwiches could keep the salad company.

Cream of mushroom soup
Chicken a la King in rice rings
Jellied pineapple-strawberry salad
Buttered asparagus tips
Bride's Pie
Coffee

The Bride's Pie is the "Trylon and Perisphere" or theme center of the menu. Its snowy white filling, light and delicate as a piece of chiffon, is set in a chocolate crumb crust.

You need never have any fears about servings of this dainty dessert collapsing or running out of the crust. The plain, unflavored gelatin with which it is made insures clean-cut servings that will always stand up in all their fluffy glory.

Bride's Pie
(Filling for one 9" pie)
1 envelope plain, un-flavored gelatin
1 cup cold water
1 cup cream, whipped
1/2 cup cold water
1 teaspoon vanilla
3 egg whites, beaten stiff and dry

Soften gelatin in cold water and dissolve over hot water. Beat egg whites until stiff and fold in sugar gradually. Add dissolved gelatin slowly to beaten egg whites and fold in whipped cream and vanilla. Pour into chocolate crumb crust and chill. Just before serving, garnish with whipped cream.

Chocolate crumb crust: 1 1/2 cups chocolate water crumbs, 1/2 cup butter, 3 tablespoons confectioner's sugar. Cream butter and sugar together and blend with chocolate water crumbs. Pat mixture into pie pan and chill.

Pineapple Strawberry Salad
(Serves 6)

1 envelope plain, un-flavored gelatin
1 cup cold water
1 cup hot water
1/2 cup canned pineapple, cut in small pieces
1/2 cup strawberries, cut in small pieces
1/2 cup almonds, chopped
1/2 cup canned pineapple, cut in small pieces
1/2 cup strawberries, cut in small pieces
1/2 cup almonds, chopped

Soften gelatin in cold water and dissolve in hot water. Add sugar, lemon juice, pineapple juice and salt. Stir thoroughly. Cool and when starting to thicken, fold in pineapple, marshmallows, strawberries and almonds. Pour into individual molds that have been rinsed out in cold water first, and chill. To serve, unmold onto lettuce and garnish with mayonnaise dressing.

World's Largest "Topper" For Tomato Man

M. Fluegelman, dean of hat makers, designs world's largest silk "topper" for mechanical tomato man who will perform in the Heinz Dome at the New York World's Fair.

M. Fluegelman of New York City, who has made high hats for the inauguration of every President of the United States from Teddy Roosevelt to Franklin D. Roosevelt, was confronted with the unique job of making the world's largest and most expensive "topper."

The hat measures 75 inches in head-size with a seven and one-half inch brim and 18-inch crown. It took two weeks to complete and cost \$100. But instead of statesmen and opera-goers this "topper" will adorn the head of a six-foot mechanical tomato man who will sing and talk for your entertainment in the Heinz Dome at the New York World's Fair.

The tomato man who operates entirely by radio wave, has an oversized head resembling a ripe, red tomato and hair fashioned of green leaves. In keeping with his silk

"topper," he is attired in the height of fashion with cut-away, striped trousers, monocle and all.

"The high hat industry," says Fluegelman, "is one of the few that remain in the category of hand crafts. There is no way of turning out high hats by machine. Every bit of work on the silk-plush hat and the crusher or opera hat, must be done by hand."

Mr. Fluegelman has the biggest high hat plant in the United States, on the second floor at 848 Sixth Avenue. Pried among his possessions are the conforms of the Presidents' head sizes and shapes. The conforms show that F. D. Roosevelt has the same headsize—7 1/2—and the same head shape of the late Theodore Roosevelt. President Coolidge had the smallest size—7 1/4, and President Taft wore a 7 1/2, the largest of them all.

The Colossal Caves

The Colossal caves are about 27 miles southeast of Tucson, Ariz. Rivaling in beauty and size the Carlsbad caves of New Mexico, this natural wonder has for many years remained almost unknown to travelers. But in recent years the caves and surrounding area have been improved under the supervision of the national park service. The ceiling is ornamented with intricate silver webbing. There are stalactites of translucent calcite. Many of these are so hard that if struck with the hand they ring like chimes. In some places the stalactites and stalagmites have joined and the result is columns of unusual shapes.

The color effects of the columnar basalt formation are striking and the action of the wind and waves produces weird sounds in the opening.

Porter an Occupation Name

Porter is an occupation name of Latin origin meaning "keeper of the gate." There are two Latin sources for this name, the noun porta (a gate, portal or any entrance) and the verb porto (carry) from which we get the word porter, one who carries luggage, etc. However, says Florence A. Cowles in the Cleveland Plain Dealer, "keeper of the gate" is the accredited meaning.

Catherine Boehm, Carl Walner Wed At Lake Villa

Miss Catherine Frances Boehm, daughter of Mr. and Mrs. Al Boehm, was married Saturday, June 3, to Carl Edward Walner of Chicago in a ceremony read by the Rev. Thorsen of Chicago, at the home of the bride's grandparents, Mr. and Mrs. V. P. Wanzer. The service took place at 8:30 P. M., in the presence of the immediate families, including Mr. and Mrs. G. P. Wanzer, Mrs. Boehm, Mr. and Mrs. Al Boehm, Mr. and Mrs. Wallner of Chicago, their daughters, Misses Annie and Elsie Wallner and Mr. and Mrs. Beebe, also of Chicago. The bride was attended by Miss Ruth Lusk of Grayslake, who was a classmate in high school, and the groom was attended by Harold Klein of Chicago. The bride was pretty in her wedding dress of white crepe. She has made her home in Lake Villa all her life and has many friends there who wish her and her husband a long and happy wedded life. Following the reception, the couple left on a honeymoon trip of a week, seeing interesting places in Wisconsin and Minnesota and upon their return, will, for the summer at least, make their home with the bride's parents. Mr. Walner is employed as meat cutter in a North Shore store.

ANNOUNCE ENGAGEMENT OF MARIE L. JUHNKE

St. Peter's Church in Antioch will be the scene next September of the marriage of Miss Marie Louise Juhnke, granddaughter of Mrs. Charles Venn, who has owned Venn's island on Lake Marie for the past 41 years, and James V. Daniels, Jr.

The engagement was announced at a cocktail party at the home of Mr. and Mrs. Paul B. Juhnke, 5403 Lakewood avenue, parents of the bride-to-be, Sunday, May 28.

Mr. and Mrs. Juhnke and Miss Juhnke are well known to Antioch residents through visits to the Venn summer home on the island.

"INDIAN FANTASY" WILL HIGHLIGHT DANCE PROGRAM

J. Mills Adair to Present Pupils in 4th Annual Recital

As the climax of his fourth year of teaching in Antioch, Jerry Mills Adair will present his dance pupils in a clever and attractively staged recital in the Antioch High School auditorium Thursday, June 15, at 8:15 o'clock.

The recital will be presented in revue form, in four different scenes, and with the majority of the pupils reported to be doing a professional type of work, it promises to be the finest program yet given here under Mr. Mills' direction.

Taking part will be students from Grayslake, Lake Villa, Antioch, Libertyville and Kenosha.

"Barnyard Follies"
What a farmer sees during a dream in which his animals put on a dance is depicted in the first act of the revue, "The Barnyard Follies." Several of Walt Disney's famous characters will be "brought to life" for the occasion.

A jump-rope tap dance done by six Kenosha girls, with perfect precision, will be a feature of this act. Another will be a bucket stair dance by six Antioch and Grayslake misses.

Serving as the finale to the second act (ballet and toe numbers) will be a Grecian frieze ballet with Shirley DeGraff as soloist.

In the third scene will be stirring military tap and toe numbers. This act features Mildred Van Patten in a difficult "William Tell" overture tap.

Indian Ballet

Tom-toms and special lighting effects will lend enchantment to the last act, the "Indian Fantasia," opening with an Indian ballet carried out entirely in white. Indian music and songs will be employed. Solo and group numbers in ballet, toe and adagio styles will be given. Jean Neville of Grayslake is to be the female soloist, and Mr. Adair will offer a spectacular Indian Eagle dance.

Taking part in the recital are—Clairella Schultz, Joan Felter, Betty Jean McDougall, Ronald Gaa, Virginia Gaa, Idal Maier, Adella Rentner, Louise Elms, Gloria Patrovsky, Mary Jean Mapletorpe, Donna Jean Hufendick, Geraldine Sass, Mildred Van Patten, Vida Haley, Jean Neville, Shirley DeGraff, Jeanne Will, Marilyn Will.

Valerie Creaves, Joyce Creaves, Betty Lou Anderson, Dawn and Deanne Heller, Elvise Krakora, Lois Murrin, Barbara Brown, Aileen and Mark Neville, Ruth Molitor, Joan Baker, Joan Stauber, Patty and Susan Bonnett, Faith Galbraith, Rita and Maureen O'Brien, Mary Jean Wilking, Charlotte Wilson, Marilyn Tieck, Marjorie McLaren and Marion Wirtz.

CHRISTIAN SCIENCE CHURCHES

"God the Only Cause and Creator" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, June 4.

The Golden Text was, "The Lord reigneth, he is clothed with majesty; the Lord is clothed with strength, wherewith he hath girded himself: the world also is established, that it cannot be moved." (Psalms 93:1).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Thou, even thou, art Lord alone; thou hast made heaven, the heaven of heavens, with their host, the earth and all things that are therein, the sea, and all that is therein, and thou preservest them all; and the host of heaven worshippeth thee" (Nehemiah 9:6).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "There is but one creator and one creation. This creation consists of the unfolding of spiritual ideas and their identities, which are embraced in the infinite Mind and forever reflected. These ideas range from the infinitesimal to infinity, and the highest ideas are the sons and daughters of God" (pp. 502-3).

The Antioch Sons of the American Legion drum and bugle corps has accepted an invitation from Col. Hugh Scott of Hines hospital to parade Sunday, June 11, for the disabled veterans there.

A practice session will be held by the corps this evening in preparation for the parade.

The boys will leave for the hospital Sunday at 11:30 A. M., and the parade will be at 1:30 o'clock, according to O. S. Klass, advisor to the corps.

Girl Scouts Enjoy Picnic, Plan for Hike

A Thursday "Guest hike" to the woods on the high school grounds is to be enjoyed by the Antioch Girl Scouts.

Last Thursday, the scouts held a picnic on the grounds at the back of the Williams home, by the creek.

The pleasure of the occasion was deleted somewhat for one of the members, Dorothy Aronson, when she inadvertently encountered a patch of poison ivy and suffered a case of ivy poisoning for a few days afterward.

Many Statues of Buddha

Throughout the world, statues of Buddha far outnumber those of Christ. In China and Japan particularly, millions of them, says Collier's Weekly, varying greatly in size and shape, fill temples, courtyards, caverns and public and private gardens. It is not unusual to find 10,000 small Buddhas carved in the walls of a remote and abandoned cave.

Mr. and Mrs. Babor Are Honored on 45th Wedding Anniversary

A son, two daughters and five grandchildren, with over eighty Chicago relatives and friends were proud and happy participants in the 45th wedding celebration held for Mr. and Mrs. James Babor, Bristol, Wis., June 4th.

The happy couple were speechless when twenty-five cars drove into their yard and surprised them.

Mr. and Mrs. Babor received a generous sum of money and a variety of personal gifts.

The delicious food and refreshments were enjoyed by all. There were games, singing and dancing on the lawn accompanied by an accordion.

Mr. and Mrs. Babor have been residents of this community for over thirty years. Mr. Babor was founder of the Antioch Packing Co.

Howard Gaston is leaving this evening in company with Walter and William Valters, Chicago, and Reino Lindrows, Waukegan, for a ten-day canoe cruise in northern Minnesota and Canada.

Hanged With Silken Rope

Lord Laurence Shirley Fferrers was the last nobleman in England to suffer a felon's death. He was tried for murder and pleaded insanity, but was found guilty, and dressed in a suit embroidered in silver he was taken in his own carriage from the Tower of London to Tyburn to be hanged. It is said that as a special concession to his request the rope used was of silk.

BABY CHICK LOSS CAN BE CUT DOWN

Obtain Reliable Birds From The Tested Flocks.

By Dr. Frank Thorp Jr., Associate Pathologist, Colorado State College, WNU Service.

The usual baby chick losses can be greatly reduced this spring and summer by farmers and poultrymen if they will buy their chicks from U. S. pullorum-tested hatcheries and flocks or from hatcheries known to maintain very rigid inspection over their breeding flocks.

Records show that pullorum disease is second only to fowl paralysis as a cause of poultry losses. Several lots of chicks have been tested at the college laboratories this year. Diseased birds have come from out-of-state hatcheries but none from hatcheries operated under the U. S. Poultry Improvement plan.

Flocks managed under this plan have been pullorum tested and all reactors removed. Those showing 10 per cent or more reactors cannot be used as breeding flocks until a retest shows that the disease has been cleared up.

A constant temperature and strict sanitation measures are essential in keeping losses to a minimum where a slight infection may exist.

Grafting or Budding Is Easy for Horticulturist

There are usually only two methods in grafting or budding fruit trees, says a writer in the Montreal Herald. Grafting is done in spring before or just as growth is starting. In grafting over fair sized or large trees this may take from three to five years doing a third to a fifth of the tree each year. The process is to saw off the limb at the desired point. The stub is then split through the center and a narrow wedge driven into the center of the stub to keep the split open until the scions are inserted. Meanwhile twigs of last year's growth which have been taken from the desired variety some time ahead and kept in a cold place to keep them dormant are cut into three bud lengths and the lower end trimmed in the form of a long wedge to match the split in the stub. In trimming these make the outside a little thicker than the inside so that the pressure will be greater along the outside where the union takes place. In inserting the scions one on each side push the bottom slightly inward and the top slightly outward and thus insure contact of the cambium or growing tissue. When in place, take out the wedge, bind around with damp raffia and use grafting wax to seal up the top of the stub and about the scion.

'Weeping Tile'

"Weeping tile" is the name often given to ordinary farm drain tile. These tile are unglazed, clay tile, one foot long, such as are used by farmers for the construction of underdrains in wet land. It may be of interest to know that the term "weeping tile" originates from the idea that, in order to be effective, water has to percolate through the walls of these tiles. The fact is, however, that no such percolation takes place, the water in the soil entering the drain through the joints between the lengths of tile. In fact, the best quality drain tile are those with the least porous walls; tile with an ability to absorb a large amount of water when allowed to soak are usually rejected because of insufficient burning in the kiln.

Agricultural Notes

Next year, 1940, the next agricultural census will be taken.

Corn acreage in the United States decreased 3,000,000 in 1938 and cotton acreage approximately 8,000,000 acres.

Turkey feeding tests in Michigan showed an average of about a pound per week gain between 20 and 24 weeks of age.

For 17 times in 21 years Canada won the world's wheat prize at the International Grain and Hay show in Chicago.

Fourteen out of fifteen poultry hatcheries in Louisiana are co-operating in the program for control of poultry diseases.

Young ducks forced for rapid growth and marketed at from 9 to 13 weeks of age are called green ducks. They weigh from 4½ to 6 pounds each.

Italian poultry vendors never deal in other meats. They sell the rooster combs separately.

Over a period of years, alfalfa has been the most profitable of the hay crops in New York state.

Good cows will average about 15 per cent more milk on three milkings a day than they will on two.

Since lambs and sheep are easily dressed, it is possible to have this good fresh meat often on the farm.

TRUTH about ADVERTISING

By CHARLES B. ROTH

\$2 EGGS

WHEN my mother went overland in a covered wagon to a new home in the West, the country was just settling up. Transportation was slow, was expensive. Prices of everything were high.

She preserved a newspaper of her girlhood on the frontier, and it interests me occasionally to read the current prices of things you buy every day now for a few cents.

Eggs were \$2 a dozen in those days. Sugar brought 40 cents a pound. Kerosene was \$3 a gallon. Candles cost 25 cents apiece.

Compare these prices with the prices you see advertised in your newspaper today and you will see that, although much talk is bandied back and forth concerning the increased cost of living, the fact is that the cost has gone downward consistently since frontier times.

One of the reasons for high prices then was undoubtedly the difficulty with which the supply was obtained—the hazards and expense of transporting goods.

But the chief reason was that the cost of these necessities could not be spread out over enough customers to bring them at lower cost to all. The merchant had to pay the cost of his business out of sales to

a comparatively few customers. Costs had to be high.

Prices on everything you buy today, regardless of whether you live in a village or a large city, would be higher now if it were not for the service of advertising in lowering them to your advantage.

As soon as a manufacturer or a merchant begins to advertise he begins to sell more. As he sells more it costs him less to sell to each customer. He cuts the price. More customers come. Again he is able to cut the price.

Pretty soon you have the situation of improved quality and lower prices, brought about through the creative service of advertising to the consumer.

Advertising and high prices do not go together at all. They are extremely incompatible to each other. It is only the product which is unadvertised, which has no established market, that costs more than you can afford to pay.

Whenever you go into a store and buy an item of advertised merchandise, it doesn't make any difference what you are getting more for your money—more in quality and service—than you would get if you spent the same amount for something which was not advertised.

The man who builds a business on advertising can give you more for your money because advertising enables him to give more for less. See how advertising pays you every day.

Obituary

Frank Nader was born in Chicago, Ill., in 1872 and passed away on the morning of Memorial Day in 1939, at the age of 67 years. As a young man he worked in a Kenosha factory and in 1907 he moved with his family to Lake Villa and this has been their home since then. In 1901 he married Anna Marie Anderson of Kenosha and ten children were born to them, five boys and five girls, all of whom are living but two—Marie and Clarence, who passed away a few years ago. Henry, the oldest, lives in Kenosha; Roy, a member of the U. S. army stationed in North Carolina, Anna, wife of Al Almquist of Chippewa Falls, Wis.; Joe, Bernice, wife of Leonard Armstrong, both of Lake Villa, and Carl, Pauline and Ellen at home with their mother. Mr. Nader was a great lover of flowers and had a garden full of them which he loved to share with his friends. He was a charter member of the Lake Villa Volunteer fire department and was active as long as he was able. He had been in failing health for some time and spent the last nine weeks in the hospital. Besides his immediate family he leaves two sisters, Mrs. Anna Belek and Mrs. Rose Belek, and two brothers, Tom Nader of Chicago and John Nader of Lake Villa.

The funeral was held Thursday afternoon at the church, with the Rev. Allen conducting the service, and Frank Sherwood, accompanied by Mrs. Nelson, sang. The profusion of lovely flowers sent by friends and relatives was a tribute of respect to one who will be missed by many friends.

the High school graduation.

Mrs. E. W. King was a Kenosha caller on Tuesday, June 6.

Helen Tompson, Eleanor White and Wilson King attended the Senior class picnic on Thursday. The class hired a bus and drove to the White Pines State Park.

Mr. and Mrs. R. E. Eddy, Miss Josie, and son, Everett, of Waukegan, called at the Max Irving and John Crawford homes Tuesday afternoon.

Mr. and Mrs. S. W. Ames of Gurnee called at H. A. Tillotson's Wednesday.

Mrs. Cora Jerred and daughter, Pearl, from Waukegan, also Mrs. Henry Heal and daughters from Kenosha, visited Mrs. Hilda Wilton and family, Sunday afternoon.

Mr. and Mrs. P. M. Jorgensen and small daughter of Kenosha visited the Will Thompson home Thursday afternoon.

The Observer

Speaking of pet peeves — we'd like to air one about those guys who stick handbills under the windshield wiper on cars, so the wipers won't work afterward, or balance cards up against the windows, so when the window is rolled open said cards slip down into cavernous recesses from which they can't be fished out.

It was just a small item in a newspaper the other day — about a baby who fell into a pail of water its mother had set on the floor, and drowned. Why is it that mothers, who supposedly love their children, are so careless about setting pails and tubs of water — often scalding hot — around within the reach of tiny children? Eternal vigilance is often the only price of safety where little folks are concerned. Getting the washing or scrubbing done on time today won't make much difference 20 years hence, but the possible loss of a little life will.

It must be summer when Antioch's main stem blossoms forth of an evening with a popcorn and peanut wagon.

Over at Grass lake quite a few breaths are being held. Will the lotus beds, "Smothered" beneath high water each summer for the last three years, blossom forth this year in their former glory? Encouraging reports of green leaves showing here and there have been received with a lack of jubilation.

"They may be water lilies," say the resort owners, gloomily. "There is a difference," explains Jim Hanrahan, of Jim's Place. "Lotus leaves are oily-looking, as though they had been waxed or something, and water gathers together in little drops on their surface."

We insist this is true. A daughter was born to a Lake Villa couple.

The mother chose the name Violet. The husband didn't like that name. But the husband was tactful, and said to his wife, "I think Violet is the prettiest name in the world. The first girl I ever went with had the name of Violet."

So the mother named the new baby Sally.

Methodist Aid Re-elects Mrs. Petty as President

Mrs. W. C. Petty was re-elected president of the Antioch Methodist Ladies' Aid society at a meeting held Wednesday afternoon at the home of Mrs. Elizabeth Anzinger, Grass lake.

Mrs. Roy Kufalk was chosen to succeed Mrs. C. L. Kutil as vice-president. The other officers are Miss Lottie Jones, who will continue to serve as treasurer, and Mrs. Gertrude Perry, re-elected secretary.

Mrs. Kutil presided in the place of Mrs. Petty, who was unable to be present.

A social time was enjoyed after the business period.

Sculptured Female Figures
Caryatides are sculptured female figures which in some classical and Renaissance buildings serve as supports, taking the place of columns or pilasters. The most noted of such figures stand in the ruins of the Erechtheum at Athens and in a hall of the Louvre in Paris.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By HAROLD L. LUNQUIST, D. D.
Dean of The Moody Bible Institute
of Chicago.
(Released by Western Newspaper Union.)

Lesson for June 11

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

PAUL SOLVES CHURCH PROBLEMS

LESSON TEXT—1 Corinthians 1:1-3, 10, 11; 4:14-21; 1 Thessalonians 5:12-15.
GOLDEN TEXT—Only let your conversation be as it becometh the gospel of Christ.—Philippians 1:27.

Victory over the destructive powers of sickness is achieved by an orderly attack of the problem. The doctor first makes a study of the condition of his patient, observing not only the outward symptoms, but the general condition of the body. He proceeds to isolate and identify the evil forces which are causing the disease, and then he is ready to apply his curative remedies and procedures.

The Church is sick today even as it was in Paul's day. We are in need of the sound advice and the effective example of "Doctor Paul" and therefore do well to apply to ourselves and to our churches the lesson of today. As we do this honestly we may find in ourselves that which is making our own church weak and ineffective. Let us apply the cure even though the process of healing may be a painful one.

I. The Condition.

What's wrong with the Church? The excerpts from the letters of Paul which make up our lesson reveal three fundamental difficulties which exist in essentially the same form today.

1. False Teachers (Gal. 3). This passage is a part of our lesson although not included in the printed portion. It tells us of Paul's masterly dealing with false teachers. Erroneous teaching and the substitution of the philosophies of men for the Word of God are responsible for much of the trouble in the Church. It is decidedly not a matter of indifference what your pastor teaches, what your Sunday School lesson helps teach, and what your Sunday School teachers present to their classes.

2. Divisions (1 Cor. 1:10). Sometimes these occur over doctrine, sometimes over church procedure, but all too often over the most insignificant things. Frequently they center around personal likes and dislikes. Cliques and little closed groups have no place in the Church. Man-worship in place of the worship of God will also wreck a church.

3. Contentions (1 Cor. 1:11). For some unexplainable reason the people who love a fight seem to want to do their fighting in the Church.

II. The Cause.

The internal troubles of the Church cannot be blamed on its testimony or on its responsibility in the world, and certainly not on its Lord. The real cause of the Church's problems will be found in men and women who are not living as they should.

1. The Contentious (1 Cor. 1:11). These are the fighters.

2. The Puffed Up (1 Cor. 4:18). They have an exaggerated idea of their own importance.

3. The Disorderly (1 Thess. 4:14). Unruly and erratic folk trouble the Church.

4. The Faint-Hearted (1 Thess. 5:14, R. V.). Timid and uncertain individuals limit and hinder God's work.

5. The Weak (1 Thess. 5:14). They are feeble in spiritual insight and power.

III. The Cure.

Diagnosis and location of the cause of a disease is practically useless unless a course of treatment is carried out. Consider the steps in the treatment of the sickness of the Church and then apply the remedy.

1. Remember that it is a "church of God" (1 Cor. 1:2).

2. Recall and follow the true teaching of God's Word (1 Cor. 4:17).

3. Receive grace and peace from the Father and the Son (1 Cor. 1:3).

4. Recognize those appointed by the Lord to be over the church as leaders and teachers (1 Thess. 5:12-16).

5. Be ashamed of ungodly misbehavior (1 Cor. 4:14).

6. Deal plainly with sin and disorder (1 Cor. 4:21). The knife of the surgeon may cause pain but it is often the way to healing.

7. Warn those who are unruly (1 Thess. 5:14). The word of spiritual admonition is too often lacking in the church.

8. Comfort and encourage the fainthearted (1 Thess. 5:14). Unregenerate man has no patience with such folk, but God does. A note of encouragement needs to be stressed in these trying days.

9. Be patient toward all men (1 Thess. 5:15). If you feel that you must be impatient, be impatient with your own faults. Patience is a Christian virtue which has almost been lost in the dizzy, high-pressure age in which we live. Let us cultivate it both in the church and in the hearts of believers.

Great Fortune

To be reconciled unto God, to possess God's favor and friendship, to be at peace with God, is the greatest fortune, bliss and happiness a human being can find on earth.

TRUTH about ADVERTISING

By CHARLES B. ROTH

KEEP YOUR SALT CELLARS CLEAN

THE other day I read of an eccentric old woman, rich and socially prominent, who went from house to house judging the occupants by the condition of the salt cellars on their tables.

If these were clean and well kept she put her stamp of approval on the household, but if they were not, regardless of the graciousness and charm of her hostess, she put them down as dowdy folks.

Not all of us, fortunately, are quite so critical, but in one sense we are. And it is good that we are. We are critical of the merchandise we buy and of the merchants from whom we buy it. It is our criticism which keeps the standards of goods and stores high.

One of the many advantages of advertising is that it invites us to be critical of the goods being advertised.

The advertiser assures us that his goods are good. He invites us to compare them with others. We do. If he relaxes for a minute and lets his standards drop, we discern it. We tell others. We cease buying his product.

He knows that even the finest of commercial reputations will suffer if a mere handful of people get wind

of the fact that the goods are sub-standard. They will tell their friends. Soon a whispering campaign is under way. He suffers.

It is only by being careful at every minute of the day that his goods and service are up to high standard that the man who advertises can succeed.

You expect more of him than you do of the man who does not advertise. The non-advertising manufacturer or merchant can fall down in delivering quality and service. You may expect him to. But the man who advertises has to live up to his high obligation.

So you see that advertising is a great vigilance committee, established and maintained in your interest, to see that the men who aspire to sell you will always be worthy of your trade.

The merchant who advertises must treat you better than the merchant who does not. He must treat you as though you were the most influential person in town.

As a matter of cold fact you are. You hold the destiny of his business in your hands. He knows it. He shows it. And you benefit by good service, by courteous treatment, by good value—and by lower prices.

Be critical of advertised goods and stores which advertise. They want you to be critical. Advertising invites you to compare before you buy. It stands or falls on value alone.

Pet Snake Obeys Order

To 'Come Out of Cistern'

ADELAIDE, AUSTRALIA.—Percy, pet snake of a local business firm, which uses him for catching rats and mice, and who had been missing for a week, was found by a plumber.

He called for a gun when he found an 11-foot snake in the cistern with him.

"But you can't kill him," the two firm men shouted. "That's our Percy."

"Percy," commanded one of the owners, going to the edge of the cistern, "come out of there." Percy did, crawled up on a rafter and went to sleep.

Suspect Found Wearing

Diamond Rings on Toes

SANTA ROSA, CALIF.—The police arrested a suspect here on the grounds that they believed no honest reason could possibly be given for the assortment of articles he had in his grip.

These included a motion-picture exposure meter in a bakelite case; a pair of dental forceps; two leather jackets; three dime banks—all empty; a large silver medal; razors, wallets—also empty—and many, many garments.

Their conviction seemed confirmed when, searched at the city jail, he was found to be wearing two diamond rings on his toes.

Dog Back After Two Years, Remembers All in Family

CHICAGO.—Rex is just a dog, a wire-haired fox terrier, but he remembered what the old homestead looked like after two and a half years. The dog, owned by the R. L. Snape family, had been missing since July, 1936.

Recently Mary Snape was walking near the family home and came upon a bedraggled mutt. She yelled "Rex" and the pup jumped up to lick her hand. Taken home, he remembered every member of the Snape family and ran straight to his bed in the basement.

Texas Ranchers Back Up 'Rest the Range' Idea

EL PASO.—West Texas stockmen are experimenting with a new type of soil conservation that has an alphabetical name.

Cattlemen call it the R. T. R.—Rest the Range—program. It requires moisture and patience.

Under the R. T. R. program ranges are left free of cattle and are allowed to lie idle for several years. In this way land "worn out" will be revitalized, stockmen said.

Surplus feed crops make this possible. Breeding herds have not been increased, and the ranges have been freed of 200,000 head of cattle and calves at high prices. As much of the remaining stock as possible is kept in feed lots. Ranchers say it will be several years before they restock the ranges to the extent they have been during the last few years.

"It can do more in one year for West Texas stockmen than Washington can do in 10 years," said Joe Evans, cattle owner and commission man.

Farmer, 81, Enrolls in Personality Course

FRAMINGHAM, MASS.—"You're never too old to learn," says Elbridge C. Barber, 81-year-old farmer.

He has enrolled in a university extension "personality" course conducted at the State Teachers' college here. Barber, who graduated from Framingham academy in 1877, likes the idea of "going to school all over again."

LAKE VILLA

Promotion exercises for the eighth grade pupils were held at the church last Wednesday evening and D. W. Thompson, principal of Warren High school, was the principal speaker of the evening. Graduates were Erwin Barnstable, William Effinger, John Meyer, Robert Hodgkins, Gladys Keister, Lillian Kelly and Ethel Nelson. The American Legion awards were awarded to Ethel Nelson and William Effinger and the scholastic trophy was presented to Robert Hodgkins. John Meyer presented the class memorial, a picture, to the school.

Mr. and Mrs. Carl Seeger and their daughter, Mrs. Richard Whitaker, visited friends at Beloit, Wis., on Decoration Day.

Miss Laura Reinebach of Chicago visited her brother, Carl Reinebach and family on Sunday.

Mrs. Alice Phalen of Kenosha is

the guest of the C. B. Hamlin family this week.

Dr. and Mrs. E. C. Nehls of Wisconsin Rapids, Wis., called on friends here last Sunday. Dr. Nehls conducted a dental office here two or three years ago.

Mrs. Sophronia Murrie of Lake Forest called on the Hooper family Sunday.

Mr. and Mrs. Al Almquist of Chipewewa Falls, Wis., came last week for the funeral of Mrs. Almquist's father, Mr. Nader, and Mrs. Almquist and

sons remained until Sunday night. Mrs. Cora Pickering of Chicago and Mrs. Emma Ames of Libertyville visited their sister, Mrs. G. P. Manzer, last Tuesday and Wednesday.

Mr. and Mrs. William Weber drove to St. Louis last week where they visited friends for a few days, returning Monday evening.

Mrs. George Mitchell and Helen Ann of Chicago spent last Saturday and Sunday at the James Kerr home. Mrs. Anna Kelly of Antioch visited at the Charles Kelly home Sunday.

son's place, Route 59, at Petite Lake these days are staying to play "barnyard golf" in the horseshoe court Charles Anderson has set up on the grounds. Tables and sun umbrellas arranged on the lawn under the trees help to make an inviting spot. . . . One hundred and fifty invitations are being sent out by the Andersons for their sixteenth annual "Opening-of-the-Season" party this Saturday night, and more friends are expected to drop in during the course of the evening.

The barbecued spareribs introduced by Nielsen's Barbecue last week-end are making a hit, and a busy time was had by all around the place, supplying the demand for them. Incidentally, Nielsen's is one of the Chicago American fishing bureau stations where information as to where they're biting and how to catch 'em may be obtained. . . . The wide, airy enclosed porches with tables, at Ireland's Lone Oak Inn, Petite lake, are a popular feature with visitors in search of coolness on warm summer evenings. Flowers and cool-looking decorations help to aid the effect.

One of the finest natural bathing beaches around the lakes is the boast of Cobb's Camp at Lake Marie. With a natural sandy shore that shelves off so gradually that it allows for wading to a considerable distance out, the beach attracts crowds of folks on a warm summer day.

Incidentally, the camp (located two miles out of Antioch on Route 59, west on Beach Grove road one and one-half miles) has been owned by Charles Cobb for more than 50 years. . . . The lake shore was a tangle of thick timber and big grape-vines when he first saw it. . . . Southern style cooking and

Tenant's Firewood Limited
In medieval times, a tenant's firewood was limited to the amount of underbrush he could cut with a hook and the deadwood he could knock from the trees with a shepherd's crook. Hence the expression, "by hook or crook."

ACES LOSE CLOSE GAME TO SILVER LAKE SUNDAY

The Antioch Aces lost to Silver Lake, 10-12, Sunday on the latter's grounds in a well-played game that looked like anybody's victory until the last man was out in the ninth.

Howard Wells led the hitting for the locals with three hits, while Schneider, Effinger, Crandall and R. Wells collected two each. Whitney and Wohlford led the attack for Silver Lake with three hits each.

Koehn was on the mound for the Aces until the sixth frame when he was relieved by Ray Wells. Silver Lake used four pitchers in their successful effort to stay out in front. After the home-townners made five counters in the sixth, the Aces made a gallant effort to even the score—making three runs in the seventh, one in the eighth and another in the final frame, just two short of tying up the game.

The Aces will play the Bristol team here Sunday. Everybody is invited to come out and lend support to the local players who are making every effort to represent this community in a creditable way.

Lake George's Outlet
Lake George's outlet is Lake Champlain in the St. Lawrence river basin. It narrows at its outlet and the waters enter Lake Champlain by a short creek, which has a descent of about 230 feet in a mile, with a series of cascades and an abrupt fall of 30 feet at Ticonderoga.

Women Can Stand Cold Weather
The thickness of the "thermal insulating tissues," or cold weather protection, of women is nearly double that of men.

Provide for Baseball Stamp "First Day" Covers

Children of school age who wish to secure the first-day covers of the Baseball Centennial stamp should have them in the hands of their postmaster in time to have them forwarded so they will reach Cooperstown, N. Y., not later than June 12, according to Postmaster John Horan of Antioch.

Provision has been made, in order to stimulate interest in the stamp, for postmasters to accept single addressed envelopes and three cents in cash from children of school age for forwarding to Cooperstown as first-day covers.

After these covers have accumulated, postmasters are forwarding them by official mail, with a postmaster's check to cover the total amount of postage involved, to the postmaster at Cooperstown who will affix the Baseball Centennial stamps to the envelopes for cancellation with the June 12, 1939, date, representing the first-day sale of this special issue, after which the covers will be dispatched to the addressees by ordinary mail.

England's Wall Street
The City of London, ruled over by the Lord Mayor, is England's Wall Street and newspaper row. Over this small district rules the Lord Mayor, whose show each fall is one of the greatest sights of London. He must be a man of wealth, for his salary does not begin to cover the expenses of his office. There is a lot of satisfaction in his job just the same, for he it is who must give the king of England permission to enter this small domain.

Largest, Smallest Countries
The largest country in the world is the Union of Soviet Socialist Republics with 8,144,228 square miles; the smallest, Vatican City, has only 108.7 acres.

Perfect Insulator Not Known
There is no perfect insulator of electricity. There are merely substances which have low conducting properties, or conversely, high resisting.
